

## Motus Flat

Sleek and elegant with leading edge technology and ergonomics

## Motus Flat

Motus utilizes tunable white technology allowing users to set the mood in their individual work spaces. The Motus Flat uses a three-pivot shade - replicating the feel of an airplane cockpit controls — allowing users to direct the light on the task at hand. Standard with dimmable and auto shut-off features.

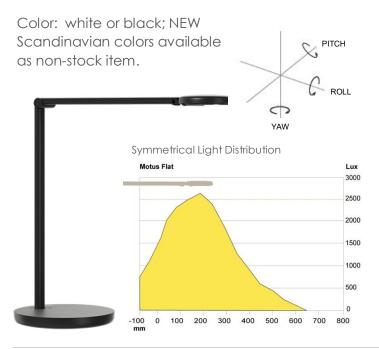

## **Light Output**

The flat shade delivers brilliant asymmetric light output directing light forward, creating a comfortable workspace while eliminating reflections. Dimmable output allows you to adjust the light output level to the user's exact needs.

With the available tunable color temperature, simply touch the switch to adjust the light from warm white to cool white in three effortless steps — from 2700K to 3300K to 4000K.

## **Inductive Charging Base for Smartphones**

With the Motus inductive base you can charge your smartphone directly on the base — no need for cables to plug in.

Light Source	LED 800 lumen output when 3000K Color Rendering Index (CRI): 90 Tunable white (CCT 4000/3300/2700K) Continuous dim down to 10% 9/4 auto shut-off Plug-in 18w power supply, 100-240v
Body Material	Powder painted aluminum arm and head, powder painted Zinc base Color: white or black Custom Scandinavian colors available
Mounting Options	Standard base, inductive charging base, edge clamp or work surface mount
Optics	Clear lens with asymmetrical light distribution
Arm / Head Technology	Fixed arm / Up-and-down, side-to-side and axis rotational movement
