# Motus Table

The versatile Motus Table task light incorporates dim-to-warm technology allowing users to set the mood in their individual work spaces. The Motus Table uses a three-pivot shade — replicating the feel of airplane cockpit controls — allowing users to direct the light on the task at hand. Standard with dimmable and auto shut-off features.

## Light Output

The sleek cup-shaped lamp head provides bright, clear light that is suitable for all work tasks. Motus Table delivers excellent symmetric light output. The distinctive Luxo high design will make this task light stand out on any table or work desk.

## Inductive Charging Base for Smartphones

With the Motus inductive base you can charge your smartphone directly on the base — no need to plug in with cables.

Color: white or black; NEW Scandinavian colors available as non-stock item.

<b>Light Source</b>	LED 800 lumen output when 4000K Color Rendering Index (CRI): 90 Dim to warm (D2W 4000-2700K) Continuous dim down to 10% 9/4 auto shut-off Plug-in 18w power supply, 100-240v AC 50/60Hz
